

Name of Paper: Science of Qur'an (Ulm Quran1)

Code: IUQR2033

The Objective of the Paper:

- To acquaint the student the following aspects from the sciences of the Quran: the first and last verses to be revealed, the connection between consecutive verses and chapters, the wisdoms and secrets behind the Quran being sent down bit by bit, and the seven huroof in which it was revealed.
- To acquaint the student with the gathering of the Quran, the first, second and third, the sayings of the scholars concerning the arrangement of verses and surahs, and the doubts that were spread regarding this.
- To know the reasons for differences in tafsir and how to analyze this.

Learning Outcome:

After the completion of this subject, the student will be able to:

- Know aspects of the sciences of the Quran (the first and last verses to be revealed, the connection between consecutive verses and surahs, the wisdoms and secrets behind the revelation of Quran bit by bit, the seven huroof in which it was revealed) as well as the sayings of the scholars concerning it and weighing these sayings.
- Mention the stages of the gathering of the Quran, and mention the doubts of the deviant people as well being able to rebut and nullify them based on the knowledge that was gained in the subject which made the student suitable for such work.
- Look into the sayings of the scholars and weigh between them and analyse the reasons for the differences, and deduce some secrets of the shariah from the Quran.

A Synopsis of the Paper:

The first and last parts that were revealed from the Holy Quran, what has been sent down in favor of some companions, the connections between verses and surahs, the seven letters, the collection of the Holy Quran, the arrangement and order of the chapter and verses, as well as the differences in the interpretations of the Holy Quran.
